Plus easier compatibility than ever...

In addition to a new look, the Big Shot Machine includes a pair of standard cutting pads and, for the first time, the Extended Multipurpose Platform. The innovative new platform accessory gives you more access to more creative options than ever. Use the platform and gain instant compatibility to the entire library of Sizzix embossing tools and non-steel-rule dies, including Sizzlits Decorative Strip dies. And because of its extended size, the new platform offers more area to create multiple projects at once. There's never been a better time to be a Big Shot!
